## WHY HAVE YOU CHOSEN TO SEEK ELECTION TO THE ELMBROOK BOARD OF EDUCATION?

I have decided to run for Member-at-Large of the Elmbrook School Board to provide a different perspective, easing the frustration evident in these economic times. By re-focusing on fundamentals, I can partner with other board members to re-direct the educational process, guiding us to provide children with meaningful learning opportunities while being ever more vigilant financially. While empowering students to take charge of their education, we can remain accountable to our taxpayers.

A community's schools represent a large investment. The expected return is two-fold:

- First, in terms of graduating students prepared to master their future,
- Second, in terms of fostering a strong community.

I believe it is essential to do both.

## WHAT PERSONAL PHILOSOPHIES AND EXPERIENCES DO YOU HAVE THAT WILL HELP YOU BEST REPRESENT THE ELMBROOK ELECTORATE?

My personal philosophy is straightforward: Continued improvement of our students' educational experiences is a primary focus. All energies must be expended to guarantee that the foundations of our educational system remain solid.

My experiences as a post-secondary educator identified the discrepancies that exist in education. The gaps are great and need to be closed. **ALL** students want to be successful. **ALL** students should be given the same district-wide opportunities to work towards their success. We can give our children those opportunities within our monetary means – it's all about priorities.

Drawing on my experiences as an educator, administrator, parent of grown children, and community member, I am able to understand, appreciate, and combine various vantage points into workable solutions.
